

## LEARN NOT TO BURN- PRESCHOOL GAME

# STAY AWAY FROM HOT THINGS!

---

### **SORTING HOT AND COLD THINGS**

*(cut out attached photos)*

#### **Activities**

##### *Learning Center*

Place trays or baskets labeled “hot” and “not hot” on the table with the following pictures. Have children sort the “hot” and “not hot” cards into the labeled trays or baskets.

##### *Group activity*

Use the photos in group time. Pass out the pictures and have each child place their photo(s) in the hot or not hot labeled trays or baskets. Discuss each item. Is it hot? Can it get hot? What do you do to stay safe from hot things? (Don't touch hot things.)

Have the children name the object in each picture to make sure they recognize the object before they decide whether or not the object is one that is “hot” or “not hot”. The names of each object are printed at the bottom of the image for the teachers to use in identification.

Note: These are not intended for reading lessons for young children.
